

Sample period: 1 second (average). Comments: Clean Data (major quality failures (QAQC 3,4,6) excluded): all data plotted pass QAQC. QAQC testing complete, manual QAQC screening may be needed for recent data. See documentation for details. Percentiles calculated from daily averages. Only 87 days of the year have at least 3 daily averages available to compute overall averages and percentiles. The above/below percentiles plots are not complete or accurate.
